Functionalities and features: A closer look

Dashboard overview, creating profiles, setting up project alerts, applying for jobs, ... Freelancing made simple!

DASHBOARD OVERVIEW

INTO THE BUSINESS ACCOUNT

TO DASHBOARD 

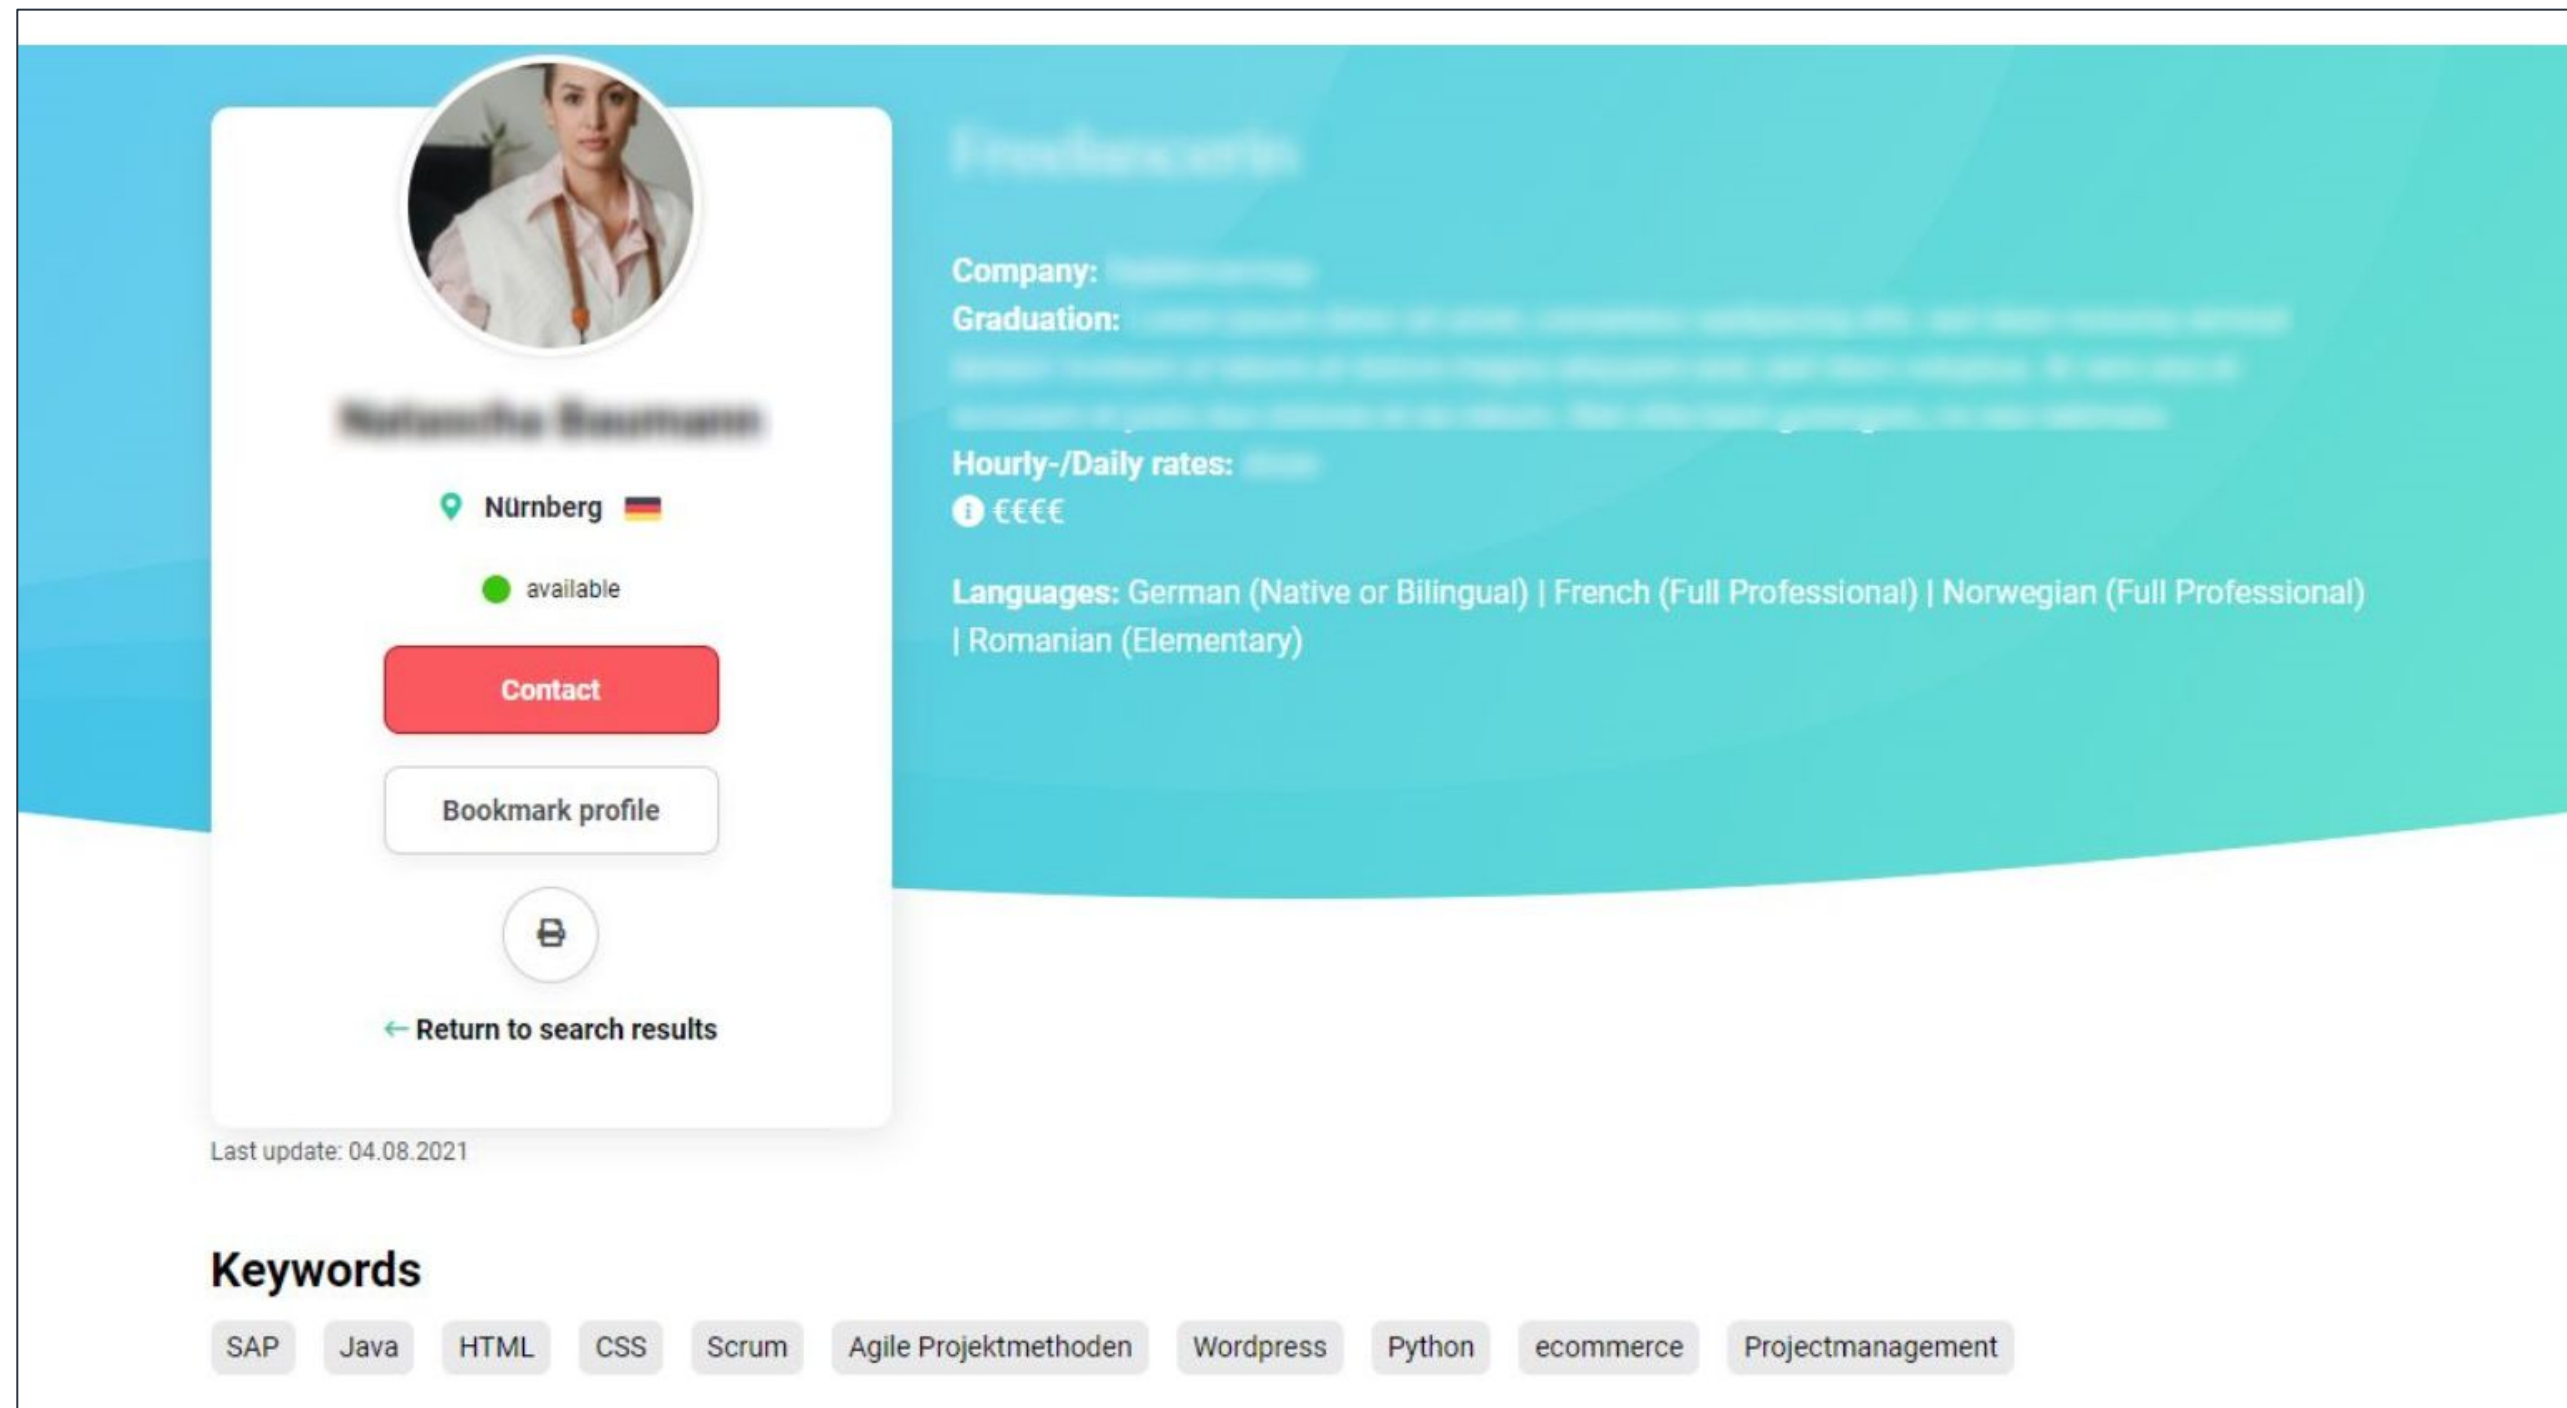

The screenshot displays the Freelancermap dashboard interface. At the top, there is a navigation bar with the logo and menu items: Projects, Freelancers, and Companies. On the right side of the navigation bar, there are icons for a message, a pin, and a user profile. The main content area is titled "Welcome back John" and features a "Weekly statistic" section with three cards: "PROJECT VIEWS" (3, 100.0%), "APPLICATIONS" (1, 100.0%), and "NEW PROFILES" (1, 0.0%). Below this, there is a "Search agent (1)" section with a "worldwide" filter and a "UI/UX" category, showing a specific agent "ui/ux" created on 09/28/2021. A "View all" link is present. The "New applications (1)" section shows a "UI/UX Designer" application received on 09/28/2021 at 15:32. On the right side, a user profile card for "John Doe" (Customer ID: [redacted], Membership: Business) shows a "Next extension: 10.08.2022". Below this, the "Active projects" section shows 1 project with "Create project" and "Manage projects" buttons. The "Company profile" section has a gear icon, and the "Settings" section has a right-pointing arrow. A dark sidebar menu is open on the right, listing: Dashboard, My projects, Employees, Settings, and Logout.

MANAGE EXPERTS PROFILES

SHOWCASE THEIR SKILLS AND EXPERIENCE

CREATE NEW PROFILES 

The screenshot shows a professional profile for Katharina Baumgart. The profile includes a circular profile picture, a location tag for Nürnberg, Germany, and a status of 'available'. There are buttons for 'Contact', 'Bookmark profile', and 'Return to search results'. The profile details section lists 'Company', 'Graduation', 'Hourly-/Daily rates' (€€€€), and 'Languages' (German, French, Norwegian, Romanian). A 'Keywords' section at the bottom lists various skills: SAP, Java, HTML, CSS, Scrum, Agile Projektmethoden, Wordpress, Python, ecommerce, and Projectmanagement. The last update date is 04.08.2021.

The business account allow you to create **multiple profiles** and showcase the skills and experience of your professionals to our global community.

You can go through our **4-step process** or easily create a profile using their resumes.

If you are **open to worldwide opportunities**, please use **English on your main profile** and translate it to other languages later.

We recommend you **add as much details and information as possible** in your profiles. Be specific in explaining the **latest projects** completed, include keywords you know potential clients will search for, add hourly rates, etc.

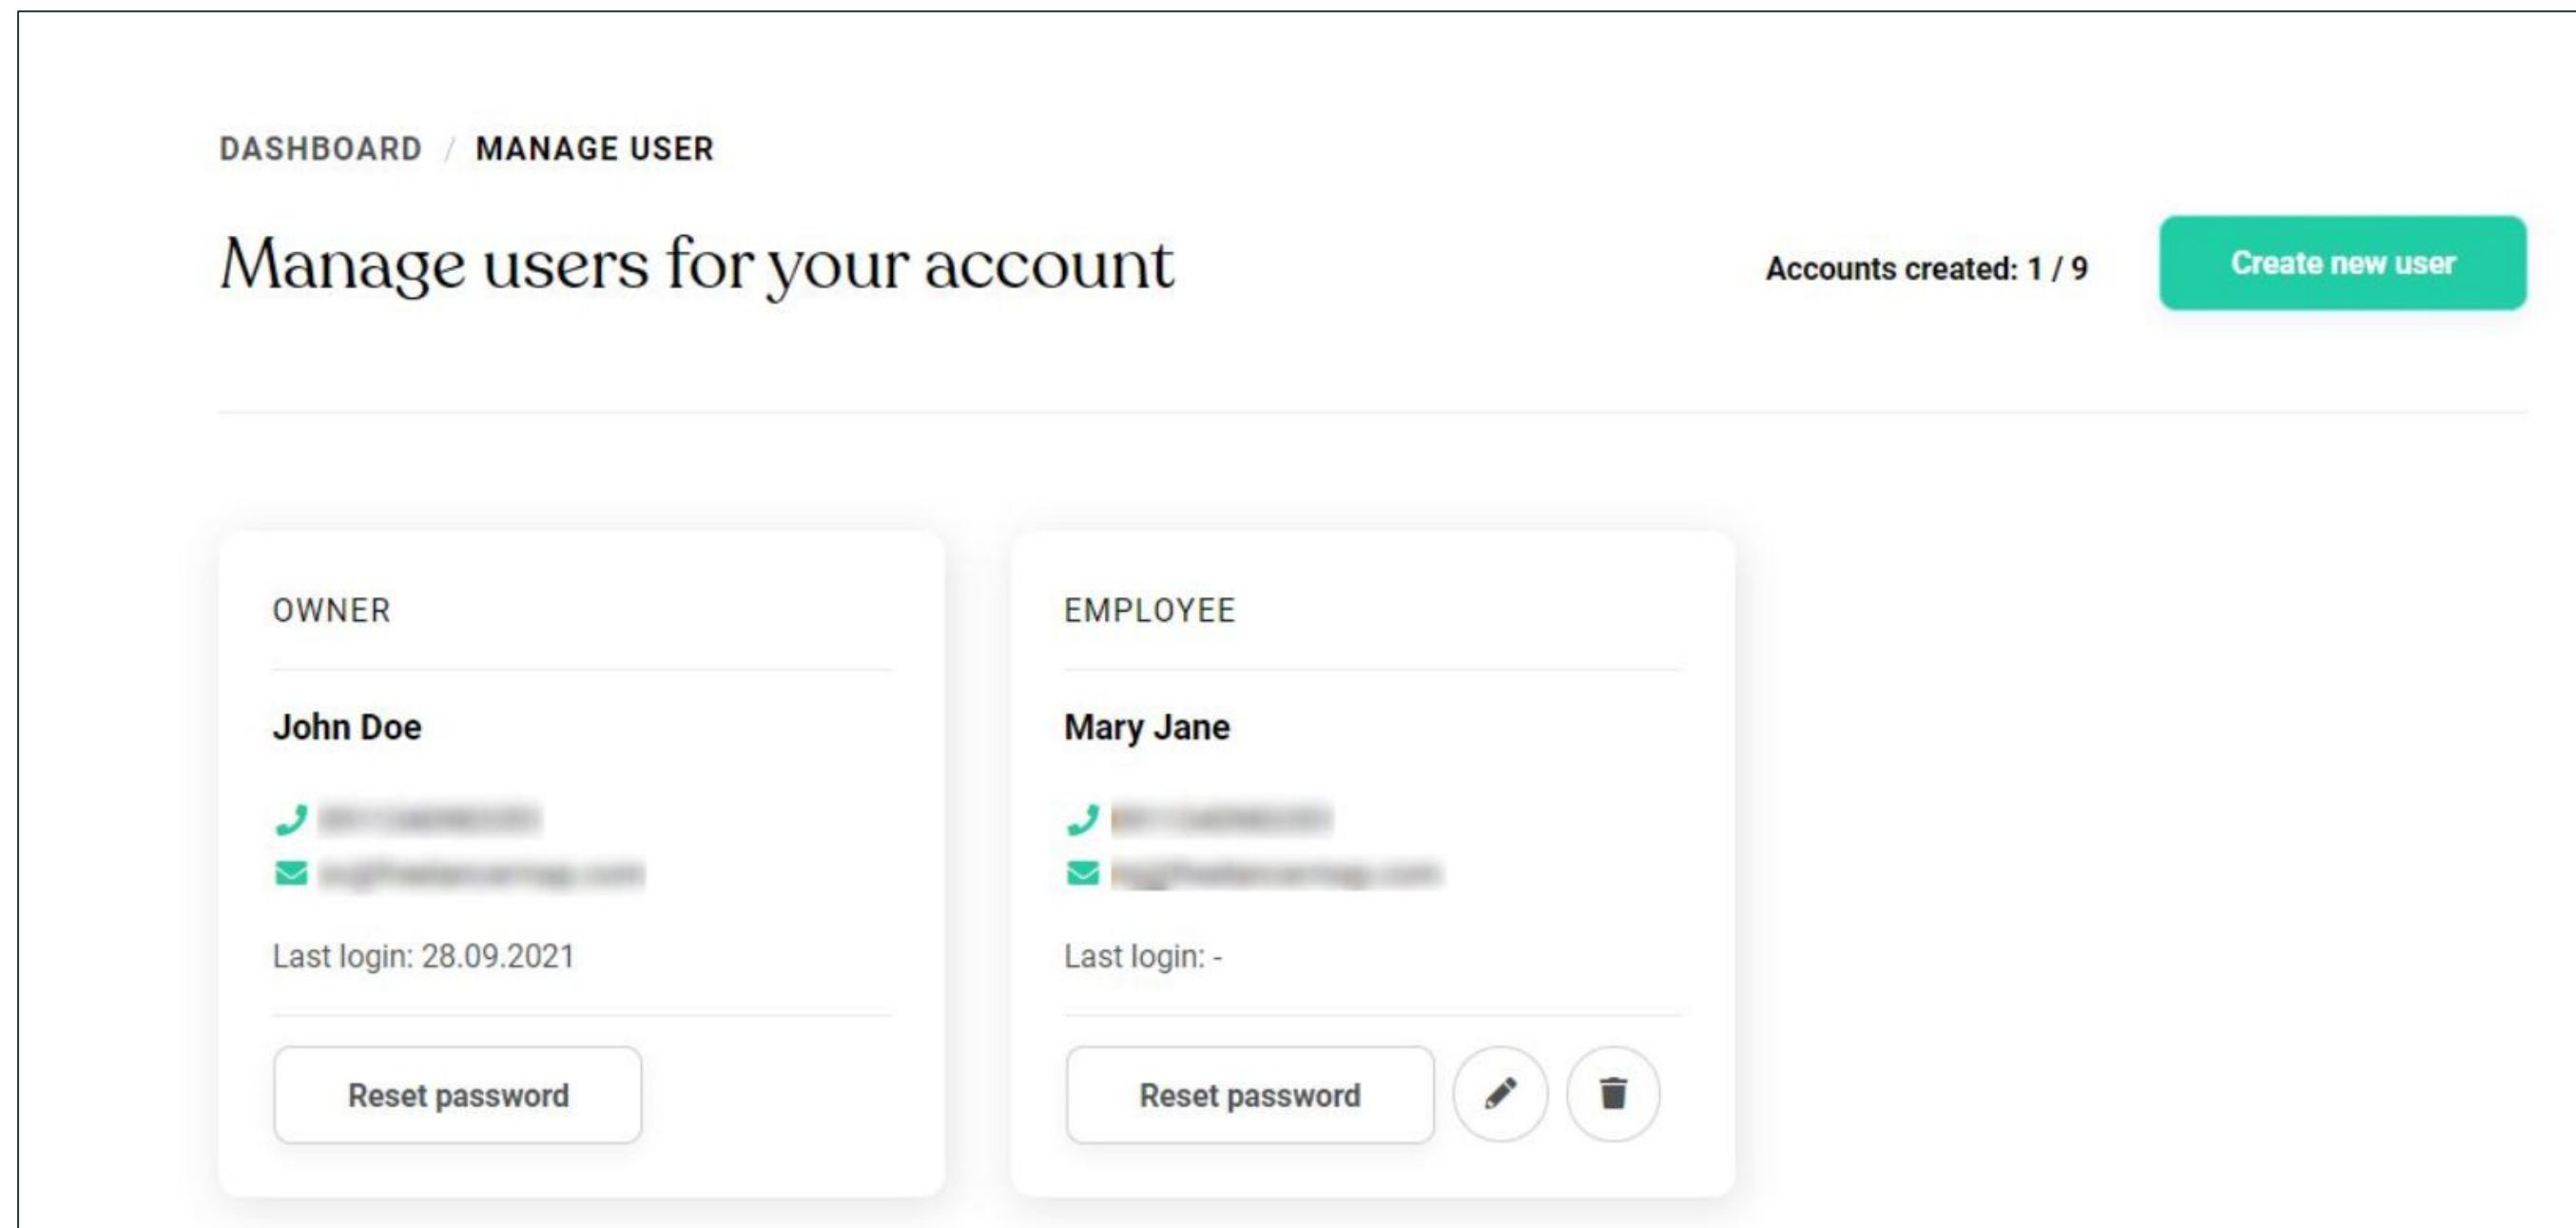

Different clients use different search criteria. The **more in detail you describe your services**, the easier it is for potential clients to find you and get in touch.

Buy profiles for your team **as you need** and manage them easily from your own account.

If you're not the only business developer at the company or you'd like each professional to have access to the freelancemap account, this is the feature for you.

The business account allows you to create and manage **multiple logins for your team** from your own business account.

Assign different roles, give **admin rights** and work easily with your team while keeping all information at one place.

Every team member will keep their **own login data** and enjoy all benefits of **premium members**.

Hint: If a team member already has an account created at freelancemap, please contact the freelancemap team to migrate the old account to the business account.
