AUTOMATED PROJECT IMPORT

GET YOUR JOBS ON OUR JOB BOARD

freelancermap

FOR RECRUITERS

Freelancermap is an open marketplace for freelancers, self-employed and agencies with over 200.000 users all over the world.

More than 35.000 clients and companies are already using the platform to find suitable freelancers and contractors for their needs.

FIND OUT MORE ON OUR FAQs ↗

Transparent and open
Get connected with top talents without limitations or fees.

Our vision
Connect talented IT freelancers worldwide with clients looking to hire them.

Boost your reach
Place your company and projects in front of over 90,000 freelancers.

Talent worldwide
One of the leading platforms in Germany and worldwide.
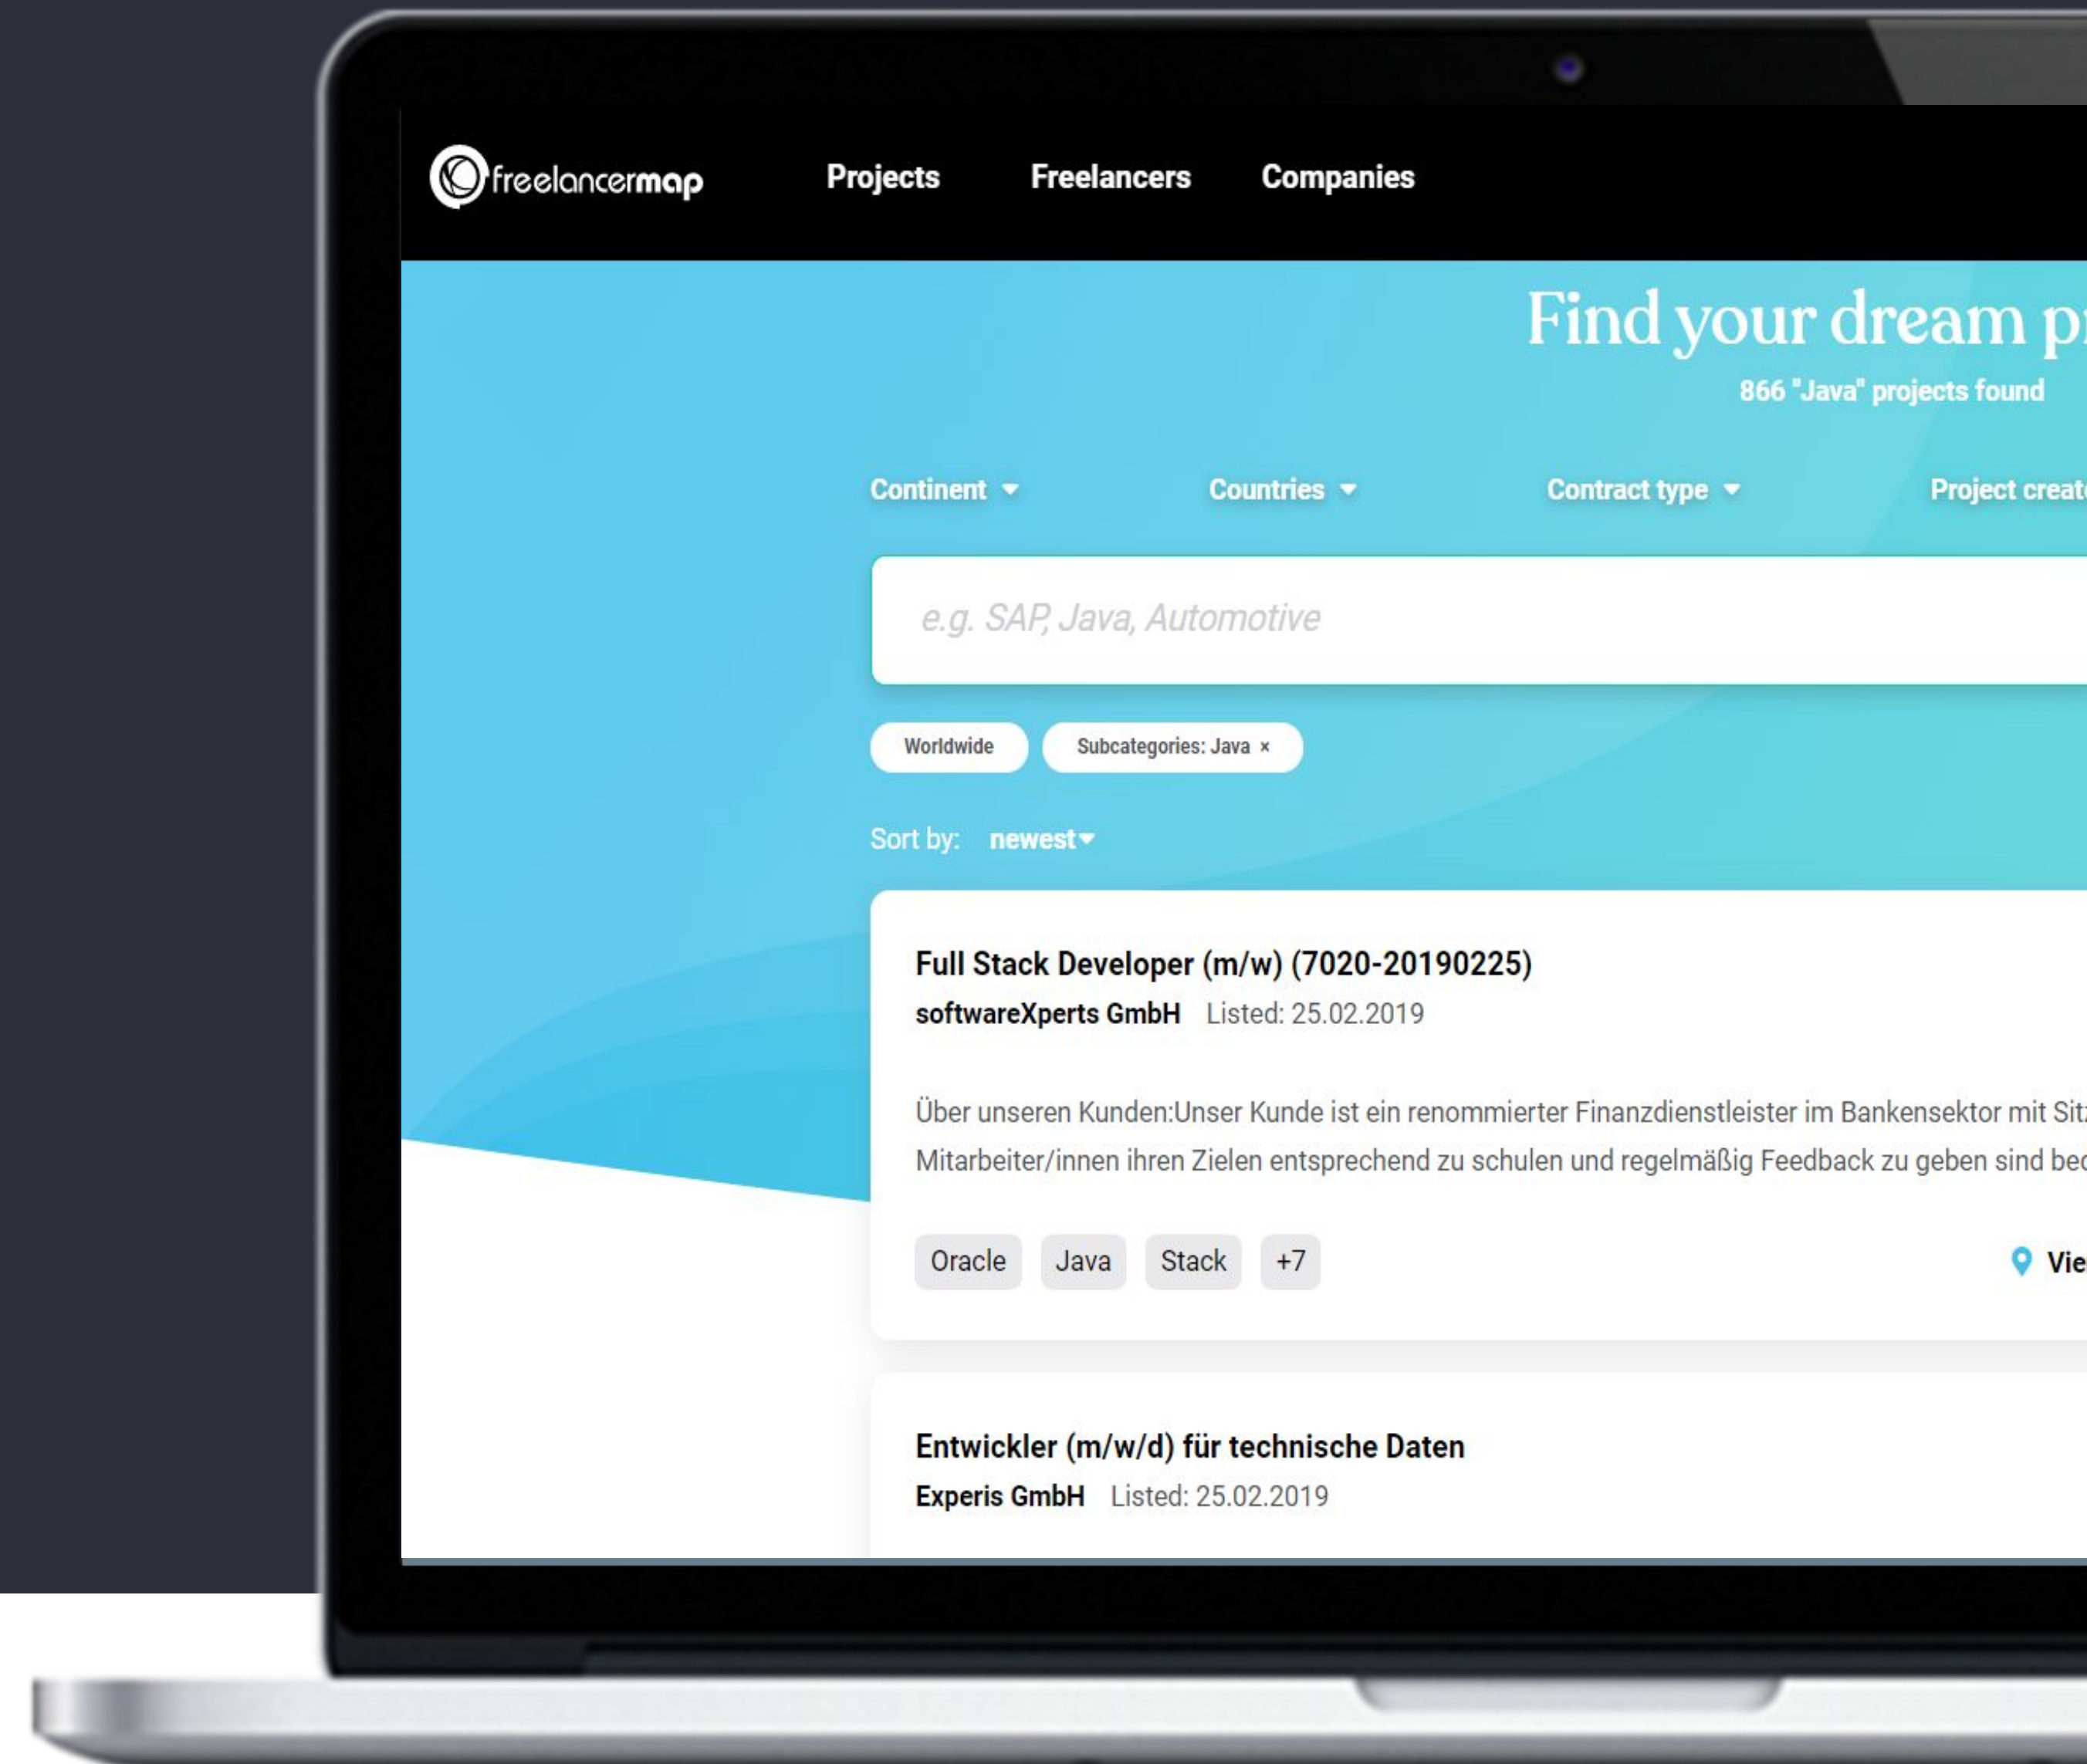

FREELANCERMAP PROJECT IMPORT

AUTOMATE AND SAVE TIME

Use your time wisely

Providing us with an XML feed is the fastest and easiest way to get your jobs on freelancermap with the highest quality.

Do not spend time adding your jobs manually, get contacted and receive CVs directly into your inbox instead!

freelancermap does not take part in the hiring process. You decide on the work terms with each professional and hire them without commission fees.

AUTOMATED PROJECT IMPORT

USE YOUR TIME WISELY WITH OUR BUSINESS ACCOUNT

INDIVIDUAL INTERFACE

HUGE TIMESAVER

AUTOMATED CATEGORIZATION

NO EXTRA COSTS

Together with you we'll create a personal interface to import your projects regularly. We only need access to your project data in a structured form.

Do you already use any software to create your job ads? Then, why should you publish projects manually? Keep your projects up-to-date with minimum effort.

Based on the keyword density in the projects our importer will automatically add relevant categories and keywords to your projects to make sure they are listed correctly.

Both the installation and maintenance of the interface are completely free of charge with our business account. Get all your job ads listed in your company profile, too.

DATA DELIVERY

Your feed will be fetched every day. Regularly, the feed is fetched every 3 hours but you can limit how often this happens, e.g. 3 times a day.

Currently there is no way of pushing feeds.

STATUS AND DELETION

HOW DO WE UPDATE YOUR JOBS ADS?

Job ads will stay online in the freelancermap job board as long as they're in your feed. As soon as you remove a job posting from your feed, the next fetch cycle will remove it from our job board, too. Likewise, existing job postings will be updated if changes in your feed are detected.

This ensures your job ads are always up-to-date.

FEED STRUCTURE

WHAT INFORMATION DO WE NEED?

To be able to import your job ads, your field must include
the following fields:

<external_id>	<proj_city>
<proj_title>	<proj_description>
<proj_type>	<start_month>
<proj_duration>	<start_year>
<proj_country>	<companyname>

Optional:

<contact_person_forename>	*<phone_office>*
<contact_person_lastname>	*<fax>*
<contact_email>	

DETAILED INFORMATION

FOR MANDATORY FIELDS

<external_id>: Unique ID for your job ads. Never user the same ID for two different ads.

<proj_title>: The title of the job. *E.g. Seeking a PHP developer*

<proj_type>: Remote - it can be completed remotely || Contract - on-site projects || Permanent - Full-time employment

<proj_duration>: The duration of the job in months

<proj_country> / <proj_city>: Country / city where the job needs to be completed

<proj_description>: Full description of your job posing

<start_month> / <start_year>: Month / year when the job will start

<companyname>: Company hiring or with a vacancy to fill
